

WCFC FAR/SOP Pre-Solo Quiz

Review before : 2025-07-26

Quiz ID : 14323

Instructor :		Date :
Pilot :	Member # :	Score :

Instructor : Please note the final score (subtract 3.0 points from 100 for each wrong answer) on the checkout form and file the quiz in the Pilot Records folder.

1 : If an authorized instructor places a limitation in a student pilot's logbook

- A : the limitation is binding on the student if the instructor has flown with the student within the previous 90 days and has provided the initial solo endorsement
- B : the limitation must be adhered to by the student pilot if the limitation was made by the student's primary instructor.
- C : the limitation shall apply only to a flight of more than 50 nautical miles
- D : the limitation is not binding but should be regarded as a cautionary recommendation.
- E : the student may not act as Pilot in Command in a manner contrary to the limitation.

2 : A Club Instructor may take off and land a Club aircraft from the right seat. If a member is not a Club Instructor, he or she may be authorized to take off and land from the right seat by whom?

- A : his or her Club Instructor
- B : Any Club Instructor in the course of training for the CFI certificate
- C : The Board of Directors of the WCFC
- D : The WCFC Chief Flight Instructor
- E : A Designated Examiner

3 : You are approaching Class C airspace. You announce to the TRACON controller your intention to enter the Class C Airspace. You are told, "**Cessna 69012, standby.**" Are you cleared to enter the Class C Airspace?

- A : Entry into Class C is authorized.
- B : Entry into Class C is not authorized.
- C : Repeat your transmission; controller did not understand your position report.
- D : Airport traffic area is saturated; controller will call back as soon as it is less congested. Remain clear of Class C.

4 : When two aircraft of the same category are converging at approximately the same altitude, which aircraft has the right-of-way?

- A : Aircraft on the right.
- B : Aircraft on the left.
- C : Slower aircraft.
- D : Faster aircraft.

5 : By FAA regulation, what are the required personal documents and certificates one must have in his or her possession to fly solo as a student pilot?

- A : Pilot certificate with endorsement, current medical with current endorsement, and photo ID
- B : Current medical certificate, insurance waiver card, photo ID, log book with current endorsements
- C : (Student) Pilot certificate, photo ID, current medical 3rd class or better, log book with current solo endorsements
- D : Pilot certificate, current medical with endorsement, photo ID, log book with current endorsements

6 : What are the two closest Class C airports to the WCFC's base airport (KTTA)?

- A : Charlotte (CLT) and Atlanta (ATL).
- B : Stanley County (VUJ) and Kinston (ISO)
- C : Raleigh (RDU) and Fayetteville (FAY).
- D : Rocky Mount Wilson (RWI) and Pitt-Greenville (PGV).

7 : Using the weather report listed below what operations are authorized by the WCFC SOPs for a student pilot solo flight?KTTA 181051Z 28008KT 7SM HZ OVC040 20/16 A2987 RMK AO2

- A : Traffic Pattern only.
- B : Practice area and traffic pattern.
- C : Cross Country, practice area and traffic pattern.
- D : None.

8 : Who is responsible for determining if an aircraft is in condition for safe flight and that all of the required inspections and maintenance have been accomplished?

- A : a certified aircraft mechanic.
- B : the student pilot's flight instructor.
- C : the pilot in command.
- D : the owner or operator of the aircraft.

9 : What action is required by the FARs for a pilot to be qualified to exercise the privileges of his/her pilot certificate?

- A : Renew the certificate privileges each year by undergoing a flight review
- B : Maintain the certificate privileges by undergoing a flight review every two years
- C : Flying with an authorized flight instructor every 12 months
- D : Undergo a flight review with a designated examiner every 24 months
- E : Undergo a flight review every 24 months

10 : VFR flight in Class G airspace at or below 1,200 feet above the surface during the day requires _____ visibility.

11 : What inspections are required for WCFC aircraft?

- A : current "100 hour" inspection.
- B : current annual inspection
- C : current progressive inspection
- D : current 50 hour inspection
- E : current annual inspection and current 100-hour inspection

12 : Prior to conducting a solo flight, a student pilot must have received and logged flight training for certain maneuvers and procedures **not** including:

- A : Go-arounds
- B : Air Traffic Control communications
- C : Ground reference maneuvers
- D : Collision avoidance, windshear avoidance, and wake turbulence avoidance
- E : Recovery from a full stall

13 : The required minimum visibility for operating in Class E (controlled airspace) below 10,000 feet MSL is:

- A : 2 statute miles.
- B : 3 statute miles.
- C : 1 nautical mile.
- D : 3 nautical miles

- 14 : According to the FARs, may a student pilot flying solo as PIC fly above an overcast if the appropriate visibility and cloud clearance requirements are complied with?
- A : No. A student pilot may not act as Pilot in Command of any flight if the flight cannot be made with visual reference to the surface.
 - B : If the weather meets the VFR visibility requirements for the applicable airspace
 - C : Yes, but only during daylight hours.
 - D : Yes, but only if visual reference to the surface can be reacquired within the fuel range of the airplane with adequate VFR reserves.
 - E : Yes, but only if the weather is clear at the departure and destination airports.
- 15 : Student pilots cannot fly solo without a specific endorsement under which of the following conditions:
- A : the crosswind component is 7 knots.
 - B : at night.
 - C : the headwind component is 16 knots.
 - D : all the above.
- 16 : KCLE 050351Z 22005KT 10SM OVC055 03/M02 A3029 RMK AO2 SLP280 T00281017
What would be two correct interpretations from this Cleveland METAR data?
- A : The report was made on the third day of the fifth month (May) and the skies were overcast
 - B : The altimeter setting was 3029 and the temperature was below freezing
 - C : The visibility was 10 statute miles and the dewpoint was below freezing
 - D : The winds were from the southwest and the ceiling was 5500 feet MSL
 - E : The altimeter setting was 3029 millibars and the ceiling was 5500 feet AGL
- 17 : Which of the following items is mandatory for day VFR flight?
- A : Attitude indicator.
 - B : Directional Gyro.
 - C : Magnetic compass.
 - D : Outside air temperature gauge.
- 18 : What (aircraft) documentation is required to be on board for flight?
- A : Airworthiness certificate, registration, owner's manual, and maintenance log.
 - B : Airworthiness certificate, registration, aircraft flight manual (AFM), and weight and balance.
 - C : Airworthiness directives (AD), registration, pilot operating handbook, and weight and balance
 - D : Airworthiness certificate, tax and ownership record, pilot operating handbook, and weight and balance

- 19 : Within which airspace classes are pilots expected to maintain two-way radio contact?
- A : Classes A and B only.
 - B : Classes A, B, and C only.
 - C : Classes A, B, C, and D only.
 - D : Classes A, B, C, D, and E.
- 20 : Limitations, such as wind and weather limitations, included by the flight instructor as part of a solo endorsement for a student pilot are:
- A : only club restrictions and have no legal authority.
 - B : optional guidance.
 - C : sanctioned by the FAA and legally enforceable.
 - D : apply to dual instruction only.
 - E : are merely recommendations and are at the discretion of the student pilot.
- 21 : All club members agree to: Avoid _____ activities or the appearance of such activities with Club aircraft or members.
- 22 : A logbook endorsement authorizing solo flight dated May 1st expires:
- A : 30 May
 - B : 30 June
 - C : 30 July
 - D : 30 August
- 23 : Using the weather report listed below what operations are authorized for a student pilot?
- KTAA 180951Z 23005KT 6SM BR OVC020 20/16 A2987 RMK AO2
- A : Traffic Pattern only.No restrictions to student pilot solo
 - B : Practice area and traffic pattern.
 - C : Cross Country, practice area and traffic pattern.
 - D : None.
 - E : Traffic Pattern only.

24 : According to the FARs: A student pilot may not act as Pilot in Command of an aircraft

- A : That has not been dispatched by a certificated instructor
- B : That departs with fewer than five hours of fuel calculated at the cruise fuel consumption
- C : That is carrying a passenger that has not previously flown with the student
- D : That is carrying a passenger
- E : In which the student pilot has not logged at least 1 hour of dual instruction.
- F : that is carrying a passenger unless that passenger is qualified by certification and rating to serve as PIC

25 : How do you acknowledge an intercepting aircraft (day)?

- A : pitching up and down rapidly.
- B : turning to a heading of 360.
- C : rocking your wings.
- D : contacting the intercepting aircraft on 112.5
- E : rolling inverted and rocking your wings

26 : No person may act as PIC of an aircraft carrying passengers unless

- A : that pilot has a commercial certificate
- B : the pilot has taken and passed a written test on FAR Part 91: General Operating and Flight Rules
- C : that pilot is acting as pilot in command of an aircraft certificated for more than one pilot flight crewmember
- D : that pilot has more than 500 hours of solo flight experience
- E : that pilot has made at least three takeoff and three landings within the preceding 90 days

27 : No instructor may authorize a student pilot to perform a solo flight unless that instructor has:

- A : Given instruction to the student in crosswind landings and go-arounds
- B : Provided the student with instruction at the airport where the initial solo flight will be conducted
- C : Flown with the student within the 30 days prior to the solo flight
- D : Given that student pilot training in the make and model of aircraft or similar make and model of aircraft in which the solo flight is to be flown
- E : Administered to the student a written examination on the interpretation of aviation weather products included METARs and TAFs

28 : Which of the following items is mandatory for day VFR flight directly from Sanford (TTA) to Stanley County (VUJ)?

- A : Transponder.
- B : Radio.
- C : GPS.
- D : Position lights.

29 : Prior to conducting a solo flight, a student pilot must have received and logged flight training for certain maneuvers and procedures **not** including:

- A : Touch and go landings
- B : Climbs and climbing turns
- C : Flight at various airspeeds from cruise to slow flight
- D : G0-arounds
- E : Powerplant operation

30 : When must we have position (navigation) lights illuminated? (according to the FARs)

- A : At the beginning of civil twilight and until sunrise
- B : During the period between sunset and sunrise
- C : Beginning when the sun has set to 6 degrees below the horizon at night and until the sun has risen to 6 degrees below the horizon in the morning
- D : When the pilot determines that the navigation lights would increase the visibility of the aircraft
